# REU Program: Yellowstone
June 9th-Aug 1st, 2025

Apply by February 18th, 2025

Investigate the Youngest Supereruption of Yellowstone

Both field and lab based projects are available, with all projects
focused in volcanology, petrology, and geochemistry.
Field-based projects will require strong outdoor skills, where applicants
should be comfortable hiking 6-10 miles a day and camping in the backcountry.

Who can apply?
Undergraduates who are U.S. citizens or permanent residents.
We strongly encourage applications from all identities, backgrounds, and experience levels.

Compensation:
$600/wk plus dorm housing and airfare to and from home institution.
